

## PROMOTEXT

The Dumb Bats are a 4-piece action rock band from Stuttgart. 4 individuals with too much energy who have found exactly the right outlet to get rid of it with their high-energy action rock, influenced and inspired by the big Skandi Rock wave of the 90s.

Like a Bulldozer, Mo and Cornelius clear the way with a driving rhythm section for the catchy guitar riffs of Fabi. Malu with her energetic vocals is the icing on the cake to get the listeners' blood pumping.

The Dumb Bats were founded in 2018 and have since released the EP Straight to the Top (2021) as well as the singles Tame the Panther (2021), Girls from nowhere and Left Lane (2023) and have been on the road since 2022 with the current line-up. Another EP will be released in 2024.
